

TUG REPLIES TO  
WIRELESS CALLRescues 116 Passengers From  
Vessel on Ajax Reef.

SHIP MAY BE TOTAL LOSS

British Steamer Bound From Spain to  
Cuba Runs Aground Off the Florida  
Coast—Tug Rescue Picks Up Call  
for Aid and Transfers Those on  
Board in Two Hours.

Key West, Fla., March 10.—One  
hundred and sixteen passengers, all  
immigrants, bound from Spain to  
Cuba, with the exception of two first  
class passengers, were taken off the  
steamer Lugano, ashore on the Ajax  
reef off the Florida coast, by the tug  
Rescue.

The passengers were landed here  
by the tug. All have been housed in  
buildings along the docks.

Transfer of the passengers from  
the ill fated Lugano was effected in  
two hours, small boats being used.  
Of the passengers rescued twelve  
were women, fifteen children and the  
remaining eighty-nine men.

When the Lugano suddenly struck  
the reef Captain Penwell realized that  
the position of the vessel was serious,  
but distress rockets and wireless  
calls were not answered for hours.

Finally the message was picked up  
by the United States wireless station  
here. At the same time it was inter-  
cepted by the tug Rescue, bound for  
this port. The latter vessel immedi-  
ately set out for the Lugano and had  
started taking off her passengers be-  
fore additional tugs sent from here  
arrived at the scene.

Captain Penwell wired officials of  
the Lloyd line, to which the Lugano  
belonged, notifying them of the ac-  
cident and asking that aid be sent  
at once in an effort to save the ship.  
When the tug Rescue left the ship  
she had eighteen feet of water in her  
hold.

Complete explanation of the ac-  
cident to the British steamer is not  
given. It is reported that the waters  
of the Gulf of Mexico were quiet.

## POLICE RESCUE SUFFRAGISTS

Riotous Crowds Prevent Speakers  
From Being Heard.

London, March 10.—The suffragists  
held meetings again in Hyde Park  
and Wimbledon.

Wild scenes ensued. Five thousand  
persons assembled in the park and  
swarmed about the speakers' plat-  
form and by a deafening din prevent-  
ed any word of "General" Mrs. Flora  
Drummond's speech from being heard.  
The pressure of the surging crowds  
to storm the platform at length be-  
came so great that police reinforce-  
ments hastily were summoned. Mrs.  
Drummond and her colleagues were  
rescued from their perilous positions  
with some difficulty.

At Wimbledon similar scenes were  
enacted. Scarcely a word uttered by  
the speakers was audible and they,  
too, had to be protected.

## WILL VETO AMNESTY BILL

President of Cuba Maintains Right  
to Rescind Measure.

Havana, March 10.—After a confer-  
ence with his cabinet, congressmen  
and lawyers President Gomez decid-  
ed to veto the amnesty bill, to the  
passage of which the American gov-  
ernment has declared its strong op-  
position.

President Gomez Friday signed the  
bill in spite of protest of the Ameri-  
can minister, but he now holds that  
his signature is ineffective until the  
publication of the bill in the official  
gazette and that therefore he still re-  
tains the right to use the power of  
veto.

The general amnesty bill provides  
for the liberation of more than 3,000  
convicts, including negroes, who took  
part in the rebellion last year.

## BURGLARS BIND WATCHMAN

Failure of Fuse Leading to Explosive  
Saves His Life.

Chicago, March 10.—Three safe  
blowers bound and gagged Peter  
Hochgurtel, watchman for a coal com-  
pany, carried him into the office,  
placed him in a chair near the safe,  
prepared a charge of nitroglycerin to  
blow it to pieces, lit the fuse and ran  
out, leaving the watchman to his fate.  
Hochgurtel with agonized eyes  
watched the fuse shorten, convinced  
that his last moment had arrived.  
Suddenly it sputtered and went out.

Outside the robbers waited until  
they were convinced that something  
had gone wrong and then started  
back to finish their work. They  
found that the spring lock on the  
door had snapped shut and they were  
unable to enter. Then they fled.

## BRANDEIS MAY LOSE OUT

Abram I. Etkus Prominently  
Mentioned for Solicitor General.

Washington, March 10.—President  
Wilson has accepted the resignation  
of William Marshall Bullitt as solicitor  
general, to take effect March 11.

Abram I. Etkus of New York, coun-  
sel for the Democratic national com-  
mittee, is prominently mentioned as  
Mr. Bullitt's probable successor.

INTENDS AIDING  
IN LAWMAKINGPresident Will Co-Operate With  
Party Leaders.

UNCERTAIN ABOUT CURRENCY

General Impression Prevails That  
Tariff Legislation Will Be the Only  
Subject Before the Special Session  
of Congress and That Financial  
Measures Will Be Taken Up at a  
More Opportune Time.

Washington, March 10.—President  
Wilson will take a hand with congress  
in framing legislation. With the co-  
operation of party leaders in the house  
and senate he proposes to work over  
tariff, currency and other important  
measures even before they are intro-  
duced and to lend the weight of the  
administration to the support of bills.

This information and the fact that  
the president will endeavor, in for-  
warding his policies, to use personal  
persuasion, not only with members  
of his own party, but with Progress-  
ive Republicans who are inclined to  
be friendly, came from those who have  
talked with him since his inaugura-  
tion.

The president does not plan to draft  
legislation, but expects by suggestion  
and conference to come to an agree-  
ment upon specific measures with the  
party leaders.

It has not been determined whether  
currency will be taken up at the spe-  
cial session. It was learned that  
when the president believes the time  
is ripe for such legislation he will  
call into conference such men as Rep-  
resentative Glass of Virginia, head of  
the subcommittee that has been in-  
vestigating currency questions, to  
agree upon the outline of a bill that  
would have administration backing.

Congressional leaders practically  
are agreed upon the suggestion that  
no subject but the tariff should be  
taken up in the special session.

House Leaders Are Doubtful.

Many house leaders even doubt the  
advisability of bringing in a currency  
bill near the end of the special ses-  
sion, as has been suggested to the  
president by the advocates of immedi-  
ate currency reform.

President Wilson's plan as to legis-  
lation is not necessarily to insist on  
the strict acceptance of administra-  
tion measures as such. But he will  
endeavor to secure the accomplish-  
ment of legislation with the aid of  
Democratic leaders that will express  
fully the fixed purposes of the ad-  
ministration.

A part of the president's plan—and  
in this he has the support of many  
house leaders—is to keep the eyes of  
the nation on one particular measure  
at a time. This was his line of pro-  
cedure as governor of New Jersey in  
pushing through the seven anti-trust  
bills.

While the president anticipates  
only little difficulty in the prompt  
movement of tariff measures through  
the house he is somewhat solicitous  
over the situation in the senate,  
where the Democratic majority is  
small. A preliminary canvass in the  
senate has developed the fact that  
many Democrats of that body will  
favor more radical cuts in some of  
the tariff duties than they did in the  
last congress. The extent to which  
the house bills will receive united  
Democratic support is not yet certain,  
however.

The early acquisition of Democratic  
senators from New Hampshire and  
Illinois, where deadlines are in pro-  
gress, is being counted upon by the  
president.

## ALLIES BOMBARD ADRIANOPLE

Turkish Artillery Inflicts Losses on  
Enemy at Bulair.

Constantinople, March 10.—An offi-  
cial communication says that the  
allies bombarded Adrianople on Thurs-  
day and Friday, the Turkish forts re-  
plying. Saturday was quiet.

Thursday at Bulair the Turkish ar-  
tillery effectively attacked a battalion  
of the enemy which was advancing, in-  
flicting considerable losses. The fol-  
lowing day the enemy fired on the  
Turkish cruiser Torgutreis, which re-  
plied and silenced their batteries.

All is reported quiet at Tchatalja.  
Only a few newspapers mention the  
fall of Janina to the Greek arms.

## THREE MARINES KILLED.

Washington, March 10.—Sergeant  
Charles A. Norton, Corporal  
Theodore D. Roberts  
and Private Ernest Johnson of  
the marine guards at Managua,  
Nicaragua, were killed and  
Captain Edward A. Green and  
several other marines were in-  
jured, but not seriously, in a  
railroad collision which oc-  
curred between Managua and  
Leon.

## POPE PIUS.

Physicians Insist He  
Must Continue to Rest.

## POPE'S CONDITION BETTER

Afflicted Only With Simple Bronchial  
Asthma.

Rome, March 10.—A marked im-  
provement in the condition of Pope  
Pius, both in the inflammation and the  
hoarseness and catarrhal ailments,  
was pronounced. His physicians in-  
sist that his holiness must continue to  
rest.

Dr. Marchisavi, describing the con-  
dition of his holiness, said that there  
were no symptoms of gout, from which  
the pope has been a frequent sufferer,  
but that he is afflicted only with a  
simple bronchial affection, somewhat  
diffuse, but without any alarming  
character.

MEXICAN REGULARS  
JOIN INSURGENTSRebels Now in Complete Con-  
trol of Sonora.

Douglas, Ariz., March 10.—Encamped  
within striking distance of several im-  
portant border towns the 8,500 con-  
stitutionalist troops rested on arms,  
while insurrections among federal gar-  
risons strengthened materially the  
rebel forces.

No word has come from Nacozari,  
south of here, where a fierce battle  
raged, and the result of the encounter  
is not known. The last word received  
from the besieged city was from the  
telegraph operator, who flashed "Too  
hot for me here," and left his key  
just before all wires between Douglas  
and Nacozari were cut.

Open revolt and scenes of disorder  
have occurred among the 250 federal  
defenders of Agua Prieta and the mili-  
tary officials there gave warning to all  
Americans to leave.

With both wire and railway com-  
munication checked the insurgents are  
now in complete control of Sonora  
and declare they will be able to check  
any advance made against them by  
Huerta.

## FEDERAL OFFICIALS PRESENT

Dr. Friedmann Treats Seven Tuber-  
culosis Sufferers.

New York, March 10.—In a thirty-  
minute clinic Dr. Friedrich F. Fried-  
mann's vaccine, which he claims is a  
cure for tuberculosis, was given a  
test in the presence of United States  
government officials. The seven cases  
treated are to remain under govern-  
ment inspection and upon their de-  
velopment will depend the official re-  
port. It was announced that Dr.  
Friedmann had furnished the federal  
representatives with specimens of his  
bacilli culture and that clinical ob-  
servations would continue to be made  
by them.

Gathered at Mount Sinai hospital,  
where the test took place, was a  
party of thirty or more physicians  
and surgeons of the city and the fed-  
eral officials for whose benefit the  
patients were treated.

## Rancher Is Murder Victim.

Forsyth, Mont., March 10.—The  
finding of the body of Arthur Hughes,  
with his head, arms and limbs burned  
to a crisp, at his ruined ranch home,  
caused Coroner Both to hold an in-  
quest. The verdict of the jury is  
that Hughes was slain.

## Crew of Twelve Sink With Ship.

Hull, Eng., March 10.—The trawler  
Admiral Togo was wrecked off Reyk-  
javik, Iceland. The crew of twelve  
men were drowned.

ONE CENT POSTAL  
RATE IS PUSHEDStrong Efforts to Lower Letter  
Postage.

WOULD RAISE SECOND CLASS

Old Fight to Boost Newspapers and  
Periodicals Receives New Impetus  
From Contest For Reduction of First  
Class Matter—Latter Would Only  
Aid Big Business Enterprises.

By ARTHUR W. DUNN.

Washington, March 10.—[Special.]—  
Strong efforts are to be made during  
the coming term of congress to secure  
one cent letter postage. Considerable  
progress was made in the direction of  
agitating the reduction of letter post-  
age during the session of congress just  
closed, but the advocates did not seri-  
ously attempt to pass any such law.

Coupled with the proposition for the  
reduction of the postage is the pro-  
posed increase of the second class rate.  
In fact, many of the advocates of the  
one cent rate assert that all that stands  
in the way of the lower rate is the fact  
that second class matter is now car-  
ried at one cent per pound.

An Old Contest.

The contest for increasing the rate  
on newspapers and periodicals is nearly  
as old as the date when the present  
rate was fixed. Subordinate persons  
in the postoffice department keep ever-  
lastingly hammering at the question  
and insist that the postoffice depart-  
ment must be made self sustaining, if  
not a money making department.

They are insisting that the news-  
papers and magazines should pay a higher  
rate in order to increase the reve-  
nues of the postoffice. Now comes the  
further suggestion that a one cent  
rate will result from increasing the  
second class postage. There will be a  
vigorous fight against the one cent  
rate proposition when it aligns itself  
with the increase of rates to news-  
papers and periodicals.

Benefit to Big Business.

It has already been pointed out that  
the beneficiaries of a reduction in first  
class postage will be the big business  
concerns, banks, corporations, manu-  
facturers, large commercial enterpris-  
es and, in fact, all of the business ele-  
ments of the community, while the  
common people, for whom so many  
men labor so industriously, will gain  
but little advantage from a reduction  
of the present rate on letter postage.

Bristow's Reputation.

Senator Bristow of Kansas has the  
reputation of objecting to many things  
which other senators want to get  
through. One day in the senate Brad-  
ley of Kentucky was pushing a pub-  
lic building bill and said that the Kan-  
sas senator had once consented to the  
bill. Bristow immediately corrected  
him. "I voted twice against it," he  
said.

"I beg the senator's pardon," replied  
Bradley; "I do not believe he ever con-  
sents to anything." And everybody in  
the senate enjoyed the allusion.

Military Experts.

During the discussion of the bill re-  
lating to the erection of a large armory  
for the District of Columbia, who  
had become familiar with state troops  
while governor of Iowa, and Root, who  
had become familiar with military  
matters as secretary of war, disagreed.

"It is the company drill which makes  
the national guard what it is," said  
Cummings. "The regimental drill is  
largely ornamental and the brigade  
drill still more so."

"The senator is stating the reverse  
of the fact," said Root. "The regi-  
mental drill is more important than  
the company drill, and the brigade  
drill is more important than the regi-  
mental drill."

The New York senator was looking  
at the matter from the army stand-  
point, where all experts agree that  
drills in large bodies are most impor-  
tant.

Interesting to the Last.

Uncle Joe Cannon was interesting to  
the very last of his service in the  
house. He had many merry quips to  
offer in debate and would occasionally  
break forth in a few words of old line  
Republican talk, telling the Democrats  
what they might expect under the new  
administration. And there was real  
sorrow over his final departure from  
the house.

Martin the Fast Talker.

The stenographers of the house have  
discovered that Martin of South Da-  
kota is the most rapidly talking mem-  
ber of the body. But they have been  
warned that two or three new men  
will give them a "run for their money"  
when they get started. The house  
is apt to invite fast talking, for time  
is always limited.

Hate to Let Go.

Those Republican senators who have  
run the senate so long hate to let go.  
They forget at times that the Democ-  
rats are in actual control and take the  
lead, as they have been doing for the  
past sixteen years. But they are learn-  
ing that a change has taken place,  
especially when the Democratic sena-  
tors assert themselves. Only two Re-  
publican senators were here when the  
Democrats last had control of the sen-  
ate.

lars for quarters.

## MRS. CARRIE C. CATT.

Believes Small Pay Is  
the Main Cause of Vice.

## LAYS BLAME TO LOW WAGES

Mrs. Catt Says It Is Most Important  
Influence in Vice.

Philadelphia, March 10.—Declaring  
that low wages has a most important  
and powerful influence upon the ques-  
tion of prostitution Mrs. Carrie Chap-  
man Catt, president of the Interna-  
tional Woman's Suffrage alliance, in  
an address here, took issue with  
statements made before the Illinois  
vice commission in Chicago.

"I do not mean to say that wages is  
the only question involved in this  
world problem," declared Mrs. Catt.  
"It is not; but it probably is the most  
powerful and the most important in-  
fluence with which we have to deal."

"I am not prepared to say that \$3 a  
week, the figure set by a witness be-  
fore the vice commission in Chicago,  
is insufficient as a living wage for a  
girl entirely dependent upon America  
herself, but upon my return to America  
from a two-year tour of the world I found  
that the prices of most necessities of  
life had risen. So this figure seems  
pitifully small."

SPEAKERS DENOUNCE  
WASHINGTON POLICESuffragists Protest Against Dis-  
turbing Parade.

Washington, March 10.—Several  
hundred men and women gathered in  
a mass meeting in protest against the  
disturbance of the suffrage parade on  
Pennsylvania avenue last Monday and  
the conduct of the police along the  
line of march.

Major Richard Sylvester, superin-  
tendent of police, and his force were  
criticized for "mismanagement and in-  
competence," and those who interfered  
with the procession were called "brutal  
loafers."

The speakers were Senators Clapp  
of Minnesota, Shafroth and Thomas of  
Colorado and Works of California,  
Louis D. Brandeis, Corporal James  
Tanner and Charles Edward Russell.  
The greater part of the speechmak-  
ing was devoted to arguments in favor  
of suffrage for women and the refer-  
ences to last Monday's trouble were  
largely incidental.

Senator Clapp assured the audience  
that woman suffrage throughout the  
country was a matter of but a few  
years. "Last Monday's spectacle," he  
said, "was a sad one. It is a sad  
thought that pure womanhood cannot  
march along the streets of the capital  
of a free nation without insult. The  
fact that drunken, depraved manhood  
could come to insult American women  
is evidence of the straits to which  
the evil political system in this coun-  
try has come in its fight against pro-  
gress."

## DARROW WILL BE RETRIED

Third Case Comes Before Court on  
March 31.

Los Angeles, March 10.—Judge Con-  
ley fixed March 31 as the date for the  
beginning of a new trial of Clarence  
Darrow, which will be the third on  
charges almost identical, alleging jury  
bribery in the McNamara trial.

Darrow thanked the court and  
added:  
"I'll fight it out. I should have  
been acquitted on the evidence and I  
surely shall fare better next time."

The jury which disagreed, it was  
stated, stood eight for conviction and four  
for acquittal.

## NOTED SCULPTOR DEAD.

Cornish, N. H., March 10.—  
Louis Saint Gaudens, a sculp-  
tor known from his own origi-  
nal work and as an assistant  
of his brother, the late Au-  
gustus Saint Gaudens, died  
here of pneumonia. He was  
born fifty-nine years ago in  
New York. One of his best  
works was the design of the  
arch at the new railroad sta-  
tion in Washington.

WILSON PICKING  
OUT DIPLOMATS

BRITISH DECLINE INVITATION

Unable to Send Fencing Team to In-  
ternational Competition.

New York, March 10.—It has de-  
veloped that England has declined  
America's challenge and invitation to  
send a team of fencers here for an in-  
ternational competition in May. The  
invitation has been extended to Bel-  
gium and the prospects of the latter  
country's accepting it are bright.

George H. Breed of the Fencers'  
club announced that in reply to the  
challenge to the Amateur Fencers'  
union of England Edgar Seligman,  
captain of the British Olympic fencing  
team at Stockholm, replied that ac-  
ceptance was out of the question, as  
the English organization could not  
muster a representative squad for the  
time suggested.

Mr. Seligman also wrote that his as-  
sociation contemplated organizing an  
international tourney in London at  
some undetermined date and hoped  
America would send fencers to com-  
pete.

## INSIDE THREE-MILE LIMIT

Two Rich Islands Found to Be in  
Canal Zone.

Panama, March 10.—An official sur-  
vey is reported to have established the  
fact that the Pacific islands of Tortola  
and Tortolita are a part of the Pana-  
ma canal zone, being within the three-  
mile coast limit. The finding is re-  
garded here as important, as both of  
the islands have rich pearl fisheries.

The United States government has  
just begun the erection of a large  
wireless plant at the Pacific entrance  
of the canal.

All records were broken during the  
month of February when 108 ships  
brought 6,200 visitors to the canal.  
They have taken away so many of  
the little silver coins of Panama for  
souvenirs that there is at present  
unusual shortage of small change.

## CHEAP FOOD FOR WORKERS

Kansas City Labor Men to Establish  
Co-Operative Store.

Kansas City, March 10.—The indus-  
trial committee unanimously voted  
to establish a co-operative store to  
sell produce at cost to union labor-  
men. A dollar from each union work-  
er, about \$12,000 in all, was pledged  
to finance the proposition.

The idea of a co-operative store for  
the labor men was originated by  
Charles A. Sumner, a well known law-  
yer here, who nationally is prominent  
in the stereotypers and electrotypers  
union.

## Rear Admiral Easton Dead.

Norwell, Mass., March 10.—Rear Ad-  
miral Joseph Giles Easton, United  
States navy, retired, who as comman-  
der of the transport Resolute in the  
Spanish-American war, informed Ad-  
miral Sampson that the enemy's fleet  
was leaving Santiago bay, died sud-  
denly at his home here.

Washington, March 10.—President  
Wilson has not completed his list of  
diplomats, but announcements are  
expected within a few days. The  
president has been considering many  
names and has been sounding pros-  
pective candidates through his friends.

The situation is about as follows:  
Richard Olney of Massachusetts can  
be ambassador to Great Britain if he  
chooses.

Chairman William F. McCombs can  
be ambassador to France if he wishes.

T. W. Gregory, a lawyer of Austin,  
Tex., may be ambassador to Mexico.  
There is some doubt whether he would  
accept if he were offered the post.

It's None Too Early to Come Here and Select Your New  
**Stylecraft Garments for Easter**

Our Spring stocks are now at their very best. Styles, Sizes, patterns, colorings—all are as complete as it is possible to make them. Then why not come now for your new Easter Suit or Coat and pick out at your leisure, besides giving us plenty of time if any alterations are necessary? Isn't that much better than waiting until the rush sets in, with its possible delays and disappointments? Of course it is, but perhaps you have not yet given it a thought. Now that we call your attention to the importance of buying early, we know you'll act on our suggestion immediately.

**The Very Latest Styles Greet You Here!**

In accordance with our usual custom, we show tomorrow the first of the new spring styles in women's and misses' garments prior to the opening of the regular season. You will be delighted with the novelties and innovations. Not in years have we shown such beautiful, graceful and distinguished attire. Everything about these latest Murphy garments is original and distinctive. The coats are extremely smart, brought about by the graceful lines and accentuated by the right trimming so tastefully applied. The skirts, too, are cleverly cut and draped, in thorough keeping with the changed effects in the coats. Altogether the garments are much more beautiful than for many seasons past. You are very welcome to view this exhibit.

The Local Speakers on Program—Supper to be Served by Ladies of Congregational Church

Hon. Wallace G. Nye, mayor of Minneapolis, will be the guest of honor and the speaker of the evening at the Commercial club banquet at the club rooms tomorrow evening. Mr. Nye will choose as his topic some subject concerning municipal government of interest to Brainerd people in general. Mr. Nye is known as a most forceful speaker who always has a message to deliver to his auditors. The supper will be served at six o'clock by the ladies of the Congregational church and the tables will be arranged in the assembly room of the Commercial club.

After the supper of several courses, Carl Zapffe, president of the commercial club and toastmaster of the evening, will commence the evening's program by a short introductory speech.

He will be followed by Mayor H. P. Dunn. "Our Schools," will be the subject of Prof. W. C. Cobb's remarks. "Commission Form of Government" will be the subject of W. H. Barron's address. Judge Jay Henry Long will speak on "Prospects of Brainerd." Following these local speakers will be Mayor Nye who will deliver the address of the evening.

Capt. H. L. Bedell of International Falls, to go into Real Estate Business

Brainerd is to soon have an accession to its business men, Capt. H. L. Bedell of International Falls, who will go into the real estate business here and who has been examining Brainerd and the Cuyuna range for the purpose of looking up a suitable location. The International Falls Daily Journal has the following commendatory notice of Capt. Bedell:

Capt. H. L. Bedell arrived this morning from Brainerd, and he brought unpleasant news—announcement of his determination to remove to the capital of Crow Wing county. After looking over Brainerd and the Cuyuna section, Mr. Bedell decided there was a greater opportunity there for him in the real estate business than in this city and at once entered into arrangements to open an office in Brainerd. Since coming home this morning he has been doing his usual hustling "stunt." Before noon he had sold his house and lot on Sixth street to J. W. Foreman and in this issue is advertising his piano and automobile for sale. He expects to give possession of his property next week and will at once remove to Brainerd. Capt. Bedell is one of the pioneers of this section, having resided here for the past fifteen years. During that time he has negotiated some of the most important real estate transactions that have been made in this section, and has been successful both as a promoter and financially. Both he and Mrs. Bedell have many friends and all will learn with regret of their preparation to leave the city which has so long been their home. Brainerd is to be congratulated over the fact of adding them to their citizenship, and in the Captain that city's business interests will find one of the surest, most straightforward and active boosters that any city ever contained.

**MUSIC AND DRAMA****"Beverly"**

The Cincinnati, Ohio, Tribune of Tuesday, Sept. 14, says: "Beverly" at the Grand this week has created the most favorable impression of any of the productions that has been seen at the theatre this season. In preparing "Beverly" for the stage, A. G. Delamater (Producer of Clean Plays) has taken great care to retain all of the characters and scenes appearing in the book, and have faithfully reproduced them on the stage. An excellent company and a beautiful scenic production of this beautiful romantic story will be presented at the Brainerd opera house on Tuesday evening, March 11.

Figures for 1912 Show That Brainerd had 194 Births and 105 Deaths in the Year

**CROSBY 52 BIRTHS, 32 DEATHS**

Cuyuna Had 20 Births, Deerwood 17, Ironton 19 and Pequot An Even Dozen Stork Visits

In the year of 1912 the ever industrious stork delivered the goods in Crow Wing county by carrying 476 babies into the county and the births were more than double the toll levied by the grim reaper, Death. The births were 476 and the deaths 220.

There was also a healthy birth rate in the neighboring towns. Crosby had 52 births and 32 deaths. Cuyuna had 20 births, Deerwood 17, Ironton 19 and Pequot enjoyed a dozen visits from the stork.

The Minnesota State Board of Health and Vital Statistics has certified to the following returns on births and deaths in Crow Wing county for the year 1912, as filed in its office by the several named registrars of cities, villages and townships:

IT PAYS TO ADVERTISE

**D STRICT DEBATE AT BRAINERD, MAR. 14**

Crookston Meets the Brainerd High School Debating League this Friday Evening

**AT HIGH SCHOOL AUDITORIUM**

"Should General Government of U. S. Own and Operate Its Railways" is Question

On Friday evening, March 14, the high school debate between the Crookston high school and the Brainerd high school will be held in the high school auditorium of this city. The subject of the debate is "Should the General Government of the U. S. Own and Operate Its Railways."

Crookston has the affirmative of the question. The Brainerd representatives are Nora Barron, Jean Mosier and Werner Lund, who were selected at a preliminary contest held a week since.

The judges will all be outside parties, probably from the departments of economics, political science and English at the university of Minnesota. Under the rules of the state league, the local school, where a contest is held, is required to meet all of the expenses including carfare and hotel bills of the visiting debaters and the outside judges. The expense will be about \$75. Hence it is necessary to sell a considerable number of tickets in order to meet the above amount.

As this is the first contest of the kind held in Brainerd it is hoped that the general public will help out by the purchase of a 25 cents ticket. The Crookston debaters were the state champions a year ago, which fact alone should be a matter of interest in connection with the debate.

**DUBUQUE'S PUBLIC MARKET**

Mrs. George Lively, Formerly of Dubuque, Explains Points About the Iowa Market

Mrs. George Lively has written the Dispatch an interesting letter on the Dubuque, Iowa public market and having formerly lived in Dubuque and being well acquainted with the market which all people of that city always refer to with pride, she explains some points regarding the cash basis, etc., which will be of interest to readers. Her letter follows:

R. R. No. 4, Brainerd, March 4-13 Editor Brainerd Dispatch,

Dear Sir: I read with much pleasure the sketch you published some weeks ago about "The Dubuque Public Market," and as I once lived there I wish to mention some facts which the writer did not speak about.

The question has been asked me, "how do they prevent the farmers from peddling vegetables around town?" It is through cooperation I think it is about twenty-three years ago that a city ordinance was passed in Dubuque which prohibited any grocer buying anything on the public market until after 9 A. M., also forbidding the farmers selling anything in the city, except on the market, until after 9 A. M. Even farmers who had regular customers were not allowed to deliver their produce until after that hour.

Another question was, "how do they manage the cash basis?" Dubuque has a great many factories, foundries and other industries whose employees are paid every Saturday. Some of the factories, at the time I lived there, allowed their employees a half holiday, Saturday afternoon; so they do not depend so much as Brainerd on the employees of the railroad company who are paid monthly.

I think the public market would be a fine thing for Brainerd and for the farmers. One says that the Brainerd ladies would be ashamed to be seen carrying a market basket, as many of the wealthiest ladies in Dubuque do, but on the other hand I think many of the farmers wives in the vicinity of Brainerd would be as much ashamed to be seen selling vegetables on a public market as their Brainerd sisters would be to be seen carrying a basket, but as I think of scenes that I have witnessed in Dubuque, I believe that on both sides they enjoyed not only profit but lots of pleasure in these early market hours.

Neither did the working class have to depend on left over vegetables as many of the farmers brought in fresh supplies for Saturday evening. When it began to get late Saturday night it was the opportunity for the poor, as the farmers generally sold what they had left, much cheaper, rather than haul it home.

Yours respectfully,  
MRS. GEO. LIVELY.

**WILL PUNISH THE INDIANS**

Punitive Expedition Will be Sent Out by the Venezuelan Government Against Tribes

As a result of the capture of the two American mining engineers, William Leslie Taylor of Brainerd and Guy N. Borge of Duluth, by Indians in the interior of Venezuela, it is announced by Associated Press dispatches that the Venezuelan government will send a punitive expedition into the district occupied by the Indians to prevent further excesses.

Taylor was engaged by one of the Indians in a hand to hand encounter and was forced to kill his assailant. The two engineers lost their entire equipment and are now at Maracaibo.

**N W CEMENT BLOCK FACTORY ORGANIZED**

J. F. Vaughn and Julius C. Clausen Form the Vaughn-Clausen Company of City

**TURN OUT BLOCKS APRIL 1**

Factory to be Located at West End Railway Yards Opposite the Brainerd Flour Mill

Brainerd is to have a new cement block factory. J. F. Vaughn, the well known cement contractor and Julius C. Clausen, a carpenter contractor and builder, have formed a partnership to be known as the Vaughn-Clausen company and will go into the business of manufacturing continuous air space cement blocks for silos, barns and other buildings and also contract to build entire cement cottages and other residences.

A factory, 40 by 48 feet in size, will be built at the west end of the railway yards opposite the Brainerd flour mill. It is expected to have everything in readiness to commence making blocks by April first.

Machinery of all kinds, including an automatic tamping machine and other modern appliances have been ordered. All blocks will be steam seasoned and cured. The frame factory building will in a short time be succeeded by a rough casted cement structure.

Mr. Vaughn laid the first cement paving in the city three years ago on South Seventh street extending south from Laurel and it is in good condition, having stood the heavy traffic at this point. He constructed the first cement sidewalks in Crosby and also had big jobs at Walker and Ower points.

Mr. Clausen has built some very fine residences in Brainerd, one of his last contracts being the pretty residence of Mike Setula on East Oak street near Tenth street.

Brainerd will witness much building this season and the new firm is assured of success in a large measure.

**Brainerd Musical Club**

Mrs. Howard G. Ingross and Miss Nell Fie Alderman were hostesses at an interesting meeting of the Musical club Saturday afternoon. As an opening number Mrs. Ingross and Miss Alderman gave a selection arranged for two pianos. Among the other pleasing features of the program were a group of songs by S. F. Alderman and a vocal duet by Mr. Alderman and Mrs. LaBar.

Miss Millicent Mahlum read a most excellent paper on "The Aim of Art." In substance Miss Mahlum said the real purpose of art is to break down the prison of self. When we feel that the lives of others are as dear to them as our lives are to us, we are close to the heart of the secret. It is the mission of life to bring us that vivid sense of other lives. True art wins the wills of many into one mood, and makes them sharers in a common consciousness. The end of art will be reached when one spirit throbs thru universal man.

At the end of the program a short business session was held. Mrs. LaBar's resignation as vice-president was accepted. The members of the club were asked to bear in mind the preparations for the reception of the state federation in the autumn and to that end were urged to plant fall flowers, that our city may be as beautiful as possible at that time.

To Our Friends and Neighbors

You know us. You know we would not—that we could not afford to go back on our word. Nor can you afford to ignore this money-back-if-not-satisfied offer on this splendid laxative.

We honestly believe we have the best bowel remedy ever made—the most pleasant to take, most permanently beneficial laxative for relief from the miseries and dangers arising from constipation.

We wouldn't say this if we didn't believe it to be true. We wouldn't risk our reputation by making such statements did we not feel sure you would find them true.

Our faith is built both on the knowledge of what Rexall Orderlies are made of and on observation of very many severe cases in which they have proven their merit.

Try them at Our Risk

If they do not abundantly prove their merit with you also—if you are not entirely satisfied with them—we will refund your money—and we will do that on your mere say-so. We don't ask you to risk a penny. Isn't that fair?

Just let the bowels fail in properly doing their work—just let their action be delayed and incomplete and the entire system and every other organ suffers. Wastes that

SAVE MUCH MONEY

Instead of so much meat a great many Brainerd housekeepers are now serving "Minnesota" Macaroni twice a week. They say the men folks are not only glad to see them save the meat money, but like the delicious nut-like flavor of "Minnesota" Macaroni much better than meat.

To those who do not know what a big difference there is in macaroni as sold at the stores, the rich, delicious, flavor of "Minnesota" Macaroni will be a revelation. It is four times as nutritious as beef-steak, is much easier to digest and costs only about one cent a dish.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Adv't.

CARDENAS TELLS OF MADERO'S END

Leader of Escort Describes Attack on Party.

NO PREMONITION OF DANGER

Both Men Were Cool and Took Their Time Previous to Trip in Automobiles That Ended in Their Death. Were Caught Between Two Fires, He Says.

City of Mexico.—An account of the death of Francisco Madero and Jose Suarez is given by Major Cardenas, commander of the escort. Cardenas, a commander of rurales, distinguished for his zeal in putting down rebellions against the constituted authorities, was called to the capital especially for the duty he was to perform.

He explains that he received an order to transfer the prisoners from the national palace to the penitentiary shortly before 10 o'clock. He went to the room in which they were confined and awakened them. Madero apparently felt no concern for his life in this moment, for his one complaint

THE DEAD EX-OFFICIALS AND SENORA MADERO.

was that the authorities had not given him notice of their plan early in the evening, so that he might have been reined up and been ready. He took his time about dressing and preparing for removal such things as he had brought with him to the palace. It was consequently some minutes after 11 o'clock when the party went out to get into the two automobiles that were waiting in the courtyard.

Even then, as the tale of Major Cardenas runs, Madero showed not the slightest concern or premonition of treachery. As though he were still clothed with the authority of the presidency, when he was about to enter the car set aside for him and Suarez he gave orders that he should be taken to the penitentiary by way of Rejola and Lecumberri streets.

This order figures in the alibi of the government, which holds that friends of Madero tried to rescue him. Major Cardenas says that the route designated by Madero had been decided upon previously, but when Madero himself chose it he told the drivers of the automobiles to take a different route. They did not come into the one chosen by Madero until they were within two blocks of the penitentiary, when they considered themselves safe from molestation.

On crossing the railroad bridge, however, they found that the Maderist plotters, as the government holds them to be, had been bolder than had been imagined. The machines had barely passed over the railway bridge on its approach to the prison when five men, lying prone at the roadside, fired upon them. The chauffeur slowed down his car as though to halt, but was ordered to put on all speed and run through the attacking party. He did so, but when the cars were within 200 yards of the penitentiary a larger band opened fire upon them. Major Cardenas then ordered the machines to stop. The escort descended and returned the fire.

Major Cardenas asserts that Madero and Suarez, seeing that their escort was being beaten off the attacks of the rescuers, then undertook to make their way toward the other side. They were thus caught between the two fires and so were cut down. Examination of the bodies showed that they had been pierced with bullets from both front and back.

How the Mighty Are Fallen.

Descendants of proud Polish kings live a decadent life in one of the wildest mountain regions of Europe, holding fast to inner Galicia. They have become primitive and clothe themselves in suits of blanketing and furs, fashioned at home, with which to withstand the long and rigorous winters. They wear their hair long, live in rude slab board and log huts, and altogether strangely resemble the North American Indian in his semicivilized life to-day in the American northwest.—Argonaut.

SERUM CREATES A BIG SENSATION

German Doctor Asserts It Cures Consumption.

TO TEACH OTHER PHYSICIANS

Dr. F. F. Friedmann Arrives in New York and Opens Bureau to Spread His Lymph All Over Country—Receives Thousands of Requests—Injects Bacillus From Turtle.

Dr. Frederick Franz Friedmann of Berlin, whose announced discovery of a cure for tuberculosis has precipitated a controversy in both hemispheres because of the scarcity of scientific information accompanying the announcement, arrived in New York recently. He was met by his brother, Dr. A. C. H. Friedmann of Colorado Springs, Colo., and Charles E. Finlay, president of the Aetna National Bank, New York city, who offered \$1,000,000 for the cure of test cases. He had with him a publicity agent named Charles de Vidal Hing, who was recognized as a former Chicago newspaper man and is said to be connected with the Berlin bureau of a New York newspaper.

Dr. Friedmann, asserted Mr. Hundt, had said nothing more than that he offered his treatment—he did not want the word "remedy" used to the United States government and that he wished it distributed as rapidly as possible in this country as well as in other countries.

"When I leave this country," Dr. Friedmann said, "I want to leave it so that no one can say he did not have an opportunity to try the Friedmann treatment because his financial means did not permit him to do so.

For Internal and External Cases.

"I intend to treat tuberculosis internally as consumption and also the external forms, particularly as it shows itself in the knee joints of children."

The foregoing was interpreted by Dr. Friedmann's brother, Mr. Hundt interrupted at this point to say:

"One of Dr. Friedmann's ambitions is to show the really remarkable results obtained in tuberculosis of the knee. Nothing would be more pleasing to him than to find as many as possible of these as are affected."

Mr. Finlay said offers had been made of several places in which patients might be treated, but nothing definite in this direction was announced beyond the fact that Dr. Friedmann would be ready to begin work in four or five days and that a great many patients were expected.

"What does your treatment consist of?" Dr. Friedmann was asked.

Injects Bacillus From a Turtle.

"It is the injection," his brother replied, "into the blood (intravenous) or into the muscular tissue or subcutaneously of an avirulent (nonvirulent) atoxic (nonpoisonous) tuberculosis bacillus from the turtle.

"Before he injected any of this into his first patient he injected it into himself three times at different intervals. No reaction beyond a little infiltration followed, and there was no fever to speak of."

Dr. Friedmann was asked how long ago he first employed the treatment. He said he thought it was four or five years ago. Reports from Berlin indicate that he announced in 1904 that he had isolated the bacillus tuberculosis and that it was of value in the treatment of the disease.

According to Dr. Friedmann, he has conferred immunity from tuberculosis upon 350 newborn children by his treatment. When asked how he knew he had conferred immunity from the disease he replied that he had observed them for eighteen months following the administration of the treatment and that no ill effect had resulted. He made no reference to the possible subsequent development of tuberculosis.

Thousands of Requests Come.

Thousands of telegrams and letters have come to the physician begging him to administer the cure to patients all over the country. He has announced that a sanatorium will be established in New York and others, probably later, in other cities and that he will teach physicians as rapidly as possible in his methods.

He declared he obtained a patent on the serum to prevent its falling into the hands of quacks.

It is to be administered absolutely free to all sufferers who can be reached.

Faneuil Hall.

Faneuil Hall is called the "Cradle of Liberty" because of its use for important political meetings during the Revolution. It was erected in 1742 by Peter Faneuil and presented by him to the town. ## TUG REPLIES TO WIRELESS CALL

Rescues 116 Passengers From Vessel on Ajax Reef.

SHIP MAY BE TOTAL LOSS

British Steamer Bound From Spain to Cuba Runs Aground Off the Florida Coast—Tug Rescue Picks Up Call for Aid and Transfers Those on Board in Two Hours.

Key West, Fla., March 10.—One hundred and sixteen passengers, all immigrants, bound from Spain to Cuba, with the exception of two first class passengers, were taken off the steamer Lugano, ashore on the Ajax reef off the Florida coast, by the tug Rescue.

The passengers were landed here by the tug. All have been housed in buildings along the docks.

Transfer of the passengers from the ill fated Lugano was effected in two hours, small boats being used. Of the passengers rescued twelve were women, fifteen children and the remaining eighty-nine men.

When the Lugano suddenly struck the reef Captain Penwell realized that the position of the vessel was serious, but distress rockets and wireless calls were not answered for hours.

Finally the message was picked up by the United States wireless station here. At the same time it was intercepted by the tug Rescue, bound for this port. The latter vessel immediately set out for the Lugano and had started taking off her passengers before additional tugs sent from here arrived at the scene.

Captain Penwell wired officials of the Lloyd line, to which the Lugano belonged, notifying them of the accident and asking that aid be sent at once in an effort to save the ship. When the tug Rescue left the ship she had eighteen feet of water in her first hold.

Complete explanation of the accident to the British steamer is not given. It is reported that the waters of the Gulf of Mexico were quiet.

## POLICE RESCUE SUFFRAGISTS

Riotous Crowds Prevent Speakers From Being Heard.

London, March 10.—The suffragists held meetings again in Hyde Park and Wimbledon.

Wild scenes ensued. Five thousand persons assembled in the park and swarmed about the speakers' platform and by a deafening din prevented any word of "General" Mrs. Flora Drummond's speech from being heard. The pressure of the surging crowds to storm the platform at length became so great that police reinforcements hastily were summoned. Mrs. Drummond and her colleagues were rescued from their perilous positions with some difficulty.

At Wimbledon similar scenes were enacted. Scarcely a word uttered by the speakers was audible and they, too, had to be protected.

## WILL VETO AMNESTY BILL

President of Cuba Maintains Right to Rescind Measure.

Havana, March 10.—After a conference with his cabinet, congressmen and lawyers President Gomez decided to veto the amnesty bill, to the passage of which the American government has declared its strong opposition.

President Gomez Friday signed the bill in spite of protest of the American minister, but he now holds that his signature is ineffective until the publication of the bill in the official gazette and that therefore he still retains the right to use the power of veto.

The general amnesty bill provides for the liberation of more than 3,000 convicts, including negroes, who took part in the rebellion last year.

## BURGLARS BIND WATCHMAN

Failure of Fuse Leading to Explosive Saves His Life.

Chicago, March 10.—Three safe burglars bound and gagged Peter Hochgurtel, watchman for a coal company, carried him into the office, placed him in a chair near the safe, prepared a charge of nitroglycerin to blow it to pieces, lit the fuse and ran out, leaving the watchman to his fate. Hochgurtel with agonized eyes watched the fuse shorten, convinced that his last moment had arrived. Suddenly it sputtered and went out.

Outside the robbers waited until they were convinced that something had gone wrong and then started back to finish their work. They found that the spring lock on the door had snapped shut and they were unable to enter. Then they fled.

## BRANDEIS MAY LOSE OUT

Abram I. Elkus Prominently Mentioned for Solicitor General.

Washington, March 10.—President Wilson has accepted the resignation of William Marshall Bullitt as solicitor general, to take effect March 11.

Abram I. Elkus of New York, counsel for the Democratic national committee, is prominently mentioned as Mr. Bullitt's probable successor.

## INTENDS AIDING IN LAWMAKING

President Will Co-Operate With Party Leaders.

## UNCERTAIN ABOUT CURRENCY

General Impression Prevails That Tariff Legislation Will Be the Only Subject Before the Special Session of Congress and That Financial Measures Will Be Taken Up at a More Opportune Time.

Washington, March 10.—President Wilson will take a hand with congress in framing legislation. With the co-operation of party leaders in the house and senate he proposes to work over tariff, currency and other important measures even before they are introduced and to lend the weight of the administration to the support of bills.

This information and the fact that the president will endeavor, in forwarding his policies, to use personal persuasion, not only with members of his own party, but with Progressive Republicans who are inclined to be friendly, came from those who have talked with him since his inauguration.

The president does not plan to draft legislation, but expects by suggestion and conference to come to an agreement upon specific measures with the party leaders.

It has not been determined whether currency will be taken up at the special session. It was learned that when the president believes the time is ripe for such legislation he will call into conference such men as Representative Glass of Virginia, head of the subcommittee that has been investigating currency questions, to agree upon the outline of a bill that would have administration backing.

Congressional leaders practically are agreed upon the suggestion that no subject but the tariff should be taken up in the special session.

House Leaders Are Doubtful.

Many house leaders even doubt the advisability of bringing in a currency bill near the end of the special session, as has been suggested to the president by the advocates of immediate currency reform.

President Wilson's plan as to legislation is not necessarily to insist on the strict acceptance of administration measures as such. But he will endeavor to secure the accomplishment of legislation with the aid of Democratic leaders that will express fully the fixed purposes of the administration.

A part of the president's plan—and in this he has the support of many house leaders—is to keep the eyes of the nation on one particular measure at a time. This was his line of procedure as governor of New Jersey in pushing through the seven anti-trust bills.

While the president anticipates only little difficulty in the prompt movement of tariff measures through the house he is somewhat solicitous over the situation in the senate, where the Democratic majority is small. A preliminary canvass in the senate has developed the fact that many Democrats of that body will favor more radical cuts in some of the tariff duties than they did in the last congress. The extent to which the house bills will receive united Democratic support is not yet certain, however.

The early acquisition of Democratic senators from New Hampshire and Illinois, where deadlines are in progress, is being counted upon by the president.

## ALLIES BOMBARD ADRIANOPLE

Turkish Artillery Inflicts Losses on Enemy at Bulair.

Constantinople, March 10.—An official communication says that the allies bombarded Adrianople on Thursday and Friday, the Turkish forts replying. Saturday was quiet.

Thursday at Bulair the Turkish artillery effectively attacked a battalion of the enemy which was advancing, inflicting considerable losses. The following day the enemy fired on the Turkish cruiser Torgutreis, which replied and silenced their batteries.

All is reported quiet at Tchatalja. A few newspapers mention the fall of Janina to the Greek arms.

## THREE MARINES KILLED.

Washington, March 10.—Sergeant Charles A. Norton, Corporal Theodore D. Roberts and Private Ernest Johnson of the marine guards at Managua, Nicaragua, were killed and Captain Edward A. Green and several other marines were injured, but not seriously, in a railroad collision which occurred between Managua and Leon.

## POPE PIUS.

Physicians Insist He Must Continue to Rest.

## POPE'S CONDITION BETTER

Afflicted Only With Simple Bronchial Affection.

Rome, March 10.—A marked improvement in the condition of Pope Pius, both in the inflammation and the hoarseness and catarrhal ailments, was pronounced. His physicians insist that his holiness must continue to rest.

Dr. Marchisavia, describing the condition of his holiness, said that there were no symptoms of gout, from which the pope has been a frequent sufferer, but that he is afflicted only with a simple bronchial affection, somewhat diffuse, but without any alarming character.

## MEXICAN REGULARS JOIN INSURGENTS

Rebels Now in Complete Control of Sonora.

Douglas, Ariz., March 10.—Encamped within striking distance of several important border towns the 8,500 constitutionalist troops rested on arms, while insurgents among federal garrisons strengthened materially the rebel forces.

No word has come from Nacoari, south of here, where a fierce battle raged, and the result of the encounter is not known. The last word received from the besieged city was from the telegraph operator, who flashed "Too hot for me here," and left his key just before all wires between Douglas and Nacoari were cut.

Open revolt and scenes of disorder have occurred among the 250 federal defenders of Agua Prieta and the military officials there gave warning to all Americans to leave.

With both wire and railway communication checked the insurgents are now in complete control of Sonora and declare they will be able to check any advance made against them by Huerta.

## FEDERAL OFFICIALS PRESENT

Dr. Friedmann Treats Seven Tuberculosis Sufferers.

New York, March 10.—In a thirty-minute clinic Dr. Friedrich F. Friedmann's vaccine, which he claims is a cure for tuberculosis, was given to the presence of United States government officials. The seven cases treated are to remain under government inspection and upon their development will depend the official report. It was announced that Dr. Friedmann had furnished the federal representatives with specimens of his bacilli culture and that clinical observations would continue to be made by them.

Gathered at Mount Sinai hospital, where the test took place, was a party of thirty or more physicians and surgeons of the city and the federal officials for whose benefit the patients were treated.

Hull, Eng., March 10.—The trawler Admiral Togo was wrecked off Reykjavik, Iceland. The crew of twelve men were drowned.

## ONE CENT POSTAL RATE IS PUSHED

Strong Efforts to Lower Letter Postage.

## WOULD RAISE SECOND CLASS

Old Fight to Boost Newspapers and Periodicals Receives New Impetus From Contest For Reduction of First Class Matter—Latter Would Only Aid Big Business Enterprises.

By ARTHUR W. DUNN.

Washington, March 10.—[Special.]—Strong efforts are to be made during the coming term of congress to secure one cent letter postage. Considerable progress was made in the direction of agitating the reduction of letter postage during the session of congress just closed, but the advocates did not seriously attempt to pass any such law.

Coupled with the proposition for the reduction of the postage is the proposed increase of the second class rate. In fact, many of the advocates of the one cent rate assert that all that stands in the way of the lower rate is the fact that second class matter is now carried at one cent per pound.

An Old Contest.

The contest for increasing the rate on newspapers and periodicals is nearly as old as the date when the present rate was fixed. Subordinate persons in the postoffice department keep everlastingly hammering at the question and insist that the postoffice department must be made self sustaining, if not a money making department.

They are insisting that the newspapers and magazines should pay a higher rate in order to increase the revenues of the postoffice. Now comes the further suggestion that a one cent rate will result from increasing the second class postage. There will be a vigorous fight against the one cent rate proposition when it aligns itself with the increase of rates to newspapers and periodicals.

Benefit to Big Business.

It has already been pointed out that the beneficiaries of a reduction in first class postage will be the big business concerns, banks, corporations, manufacturers, large commercial enterprises and, in fact, all of the business elements of the community, while the common people, for whom so many men labor so industriously, will gain but little advantage from a reduction of the present rate on letter postage.

Bristow's Reputation.

Senator Bristow of Kansas has the reputation of objecting to many things which other senators want to get through. One day in the senate Bradley of Kentucky was pushing a public building bill and said that the Kansas senator had once consented to the bill. Bristow immediately corrected him. "I voted twice against it," he said.

"I beg the senator's pardon," replied Bradley; "I do not believe he ever consents to anything." And everybody in the senate enjoyed the allusion.

Military Experts.

During the discussion of the bill relating to the erection of a large armory for the District militia Cummins, who had become familiar with state troops while governor of Iowa, and Root, who had become familiar with military matters as secretary of war, disagreed. "It is the company drill which makes the national guard what it is," said Cummins. "The regimental drill is largely ornamental and the brigade drill still more so."

"The senator is stating the reverse of the fact," said Root. "The regimental drill is more important than the company drill, and the brigade drill is more important than the regimental drill."

The New York senator was looking at the matter from the army standpoint, where all experts agree that drills in large bodies are most important.

Interesting to the Last.

Uncle Joe Cannon was interesting up to the very last of his service in the house. He had many merry quips to offer in debate and would occasionally break forth in a few words of old line Republican talk, telling the Democrats what they might expect under the new administration. And there was real sorrow over his final departure from the house.

Martin the Fast Talker.

The stenographers of the house have discovered that Martin of South Dakota is the most rapidly talking member of the body. But they have been warned that two or three new men will give them a "run for their money" when they get started. The house is apt to invite fast talking, for time is always limited.

Hate to Let Go.

Those Republican senators who have run the senate so long hate to let go. They forget at times that the Democrats are in actual control and take the lead, as they have been doing for the past sixteen years. But they are learning that a change has taken place, especially when the Democratic senators assert themselves. Only two Republican senators were here when the Democrats last had control of the senate.

## MRS. CARRIE C. CATT.

Believes Small Pay is the Main Cause of Vice.

## LAYS BLAME TO LOW WAGES

Mrs. Catt Says It is Most Important Influence in Vice.

Philadelphia, March 10.—Declaring that low wages has a most important and powerful influence upon the question of prostitution Mrs. Carrie Chapman Catt, president of the International Woman's Suffrage alliance, in an address here, took issue with statements made before the Illinois vice commission in Chicago.

"I do not mean to say that wages is the only question involved in this world problem," declared Mrs. Catt. "It is not; but it probably is the most powerful and the most important influence with which we have to deal."

"I am not prepared to say that \$8 a week, the figure set by a witness before the vice commission in Chicago, is insufficient as a living wage for a girl entirely dependent upon herself, but upon my return to America from a two-year tour of the world I found that the prices of most necessities of life had risen. So this figure seems pitifully small."

## SPEAKERS DENOUNCE WASHINGTON POLICE

Suffragists Protest Against Disturbing Parade.

Washington, March 10.—Several hundred men and women gathered in a mass meeting in protest against the disturbance of the suffrage parade on Pennsylvania avenue last Monday and the conduct of the police along the line of march.

Major Richard Sylvester, superintendent of police, and his force were criticised for "mismanagement and incompetence," and those who interfered with the procession were called "brutal loafers."

The speakers were Senators Clapp of Minnesota, Shafroth and Thomas of Colorado and Works of California, Louis D. Brandeis, Corporal James Tanner and Charles Edward Russell. The greater part of the speechmaking was devoted to arguments in favor of suffrage for women and the references to last Monday's trouble were largely incidental.

Senator Clapp assured the audience that woman suffrage throughout the country was a matter of but a few years. "Last Monday's spectacle," he said, "was a sad one. It is a sad thought that pure womanhood cannot march along the streets of the capital of a free nation without insult. The fact that drunken, depraved manhood could come to insult American women is evidence of the straits to which the evil political system in this country has come in its fight against progress."

## DARROW WILL BE RETRIED

Third Case Comes Before Court on March 31.

Los Angeles, March 10.—Judge Conley fixed March 31 as the date for the beginning of a new trial of Clarence Darrow, which will be the third on charges almost identical, alleging jury bribing in the McNamara trial.

Darrow thanked the court and added: "I'll fight it out. I should have been acquitted on the evidence and I surely shall fare better next time."

The jury which disagreed, it was stated, stood eight for conviction and four for acquittal.

NOTED SCULPTOR DEAD.

Cornish, N. H., March 10.—Louis Saint Gaudens, a sculptor known from his own original work and as an assistant of his brother, the late Augustus Saint Gaudens, died here of pneumonia. He was born fifty-nine years ago in New York. One of his best works was the design of the arch at the new railroad station in Washington.

## WILSON PICKING OUT DIPLOMATS

### BRITISH DECLINE INVITATION

Unable to Send Fencing Team to International Competition.

New York, March 10.—It has developed that England has declined America's challenge and invitation to send a team of fencers here for an international competition in May. The invitation has been extended to Belgium and the prospects of the latter country's accepting it are bright.

George H. Breed of the Fencers' club announced that in reply to the challenge to the Amateur Fencers' union of England Edgar Seligman, captain of the British Olympic fencing team at Stockholm, replied that acceptance was out of the question, as the English organization could not muster a representative squad for the time suggested.

Mr. Seligman also wrote that his association contemplated organizing an international tourney in London at some undetermined date and hoped America would send fencers to compete.

### INSIDE THREE-MILE LIMIT

Two Rich Islands Found to Be in Canal Zone.

Panama, March 10.—An official survey is reported to have established the fact that the Pacific islands of Tortola and Tortolita are a part of the Panama canal zone, being within the three-mile canal limit. The finding is regarded here as important, as both of the islands have rich pearl fisheries.

The United States government has just begun the erection of a large wireless plant at the Pacific entrance of the canal.

All records were broken during the month of February when 108 ships brought 6,200 visitors to the canal. They have taken away so many of the little silver coins of Panama for souvenirs that there is at present unusual shortage of small change.

### CHEAP FOOD FOR WORKERS

Kansas City Labor Men to Establish Co-Operative Store.

Kansas City, March 10.—The industrial committee unanimously voted to establish a co-operative store to sell produce at cost to union labor men. A dollar from each union worker, about \$12,000 in all, was pledged to finance the proposition.

The idea of a co-operative store for the labor men was originated by Charles A. Sumner, a well known lawyer here, who nationally is prominent in the stereotypers and electrotypers union.

### Rear Admiral Easton Dead.

Norwell, Mass., March 10.—Rear Admiral Joseph Giles Easton, United States navy, retired, who as commander of the transport Resolute in the Spanish-American war, informed Admiral Sampson that the enemy's fleet was leaving Santiago bay, died suddenly at his home here.

## OLNEY MAY GO TO LONDON

Massachusetts Man Said to Be Favorite for Ambassador to Great Britain. William F. McCombs Can Have French Position and Charles R. Crane May Land St. Petersburg or Peking Berth.

Washington, March 10.—President Wilson has not completed his list of diplomats, but announcements are expected within a few days. The president has been considering many names and has been sounding prospective candidates through his friends. The situation is about as follows:

Richard Olney of Massachusetts can be ambassador to Great Britain if he chooses.

Chairman William F. McCombs can be ambassador to France if he wishes. T. W. Gregory, a lawyer of Austin, Tex., may be ambassador to Mexico. There is some doubt whether he would accept if he were offered the post.

Charles R. Crane of Chicago can go to St. Petersburg or Peking if he desires.

Augustus Thomas, the playwright, probably will be ambassador to France if Mr. McCombs does not accept. Otherwise he may be offered the ambassadorship to Germany.

Frederick C. Penfield of Germantown, Pa., will be ambassador to one of the European courts, probably Russia, Austria or Turkey.

Henry N. Morganthau of New York and Thomas Nelson Page are being considered for ambassadorships.

Presented to President Wilson.

Most of these men have been in Washington during the last week and significance is attached to the fact that some of them not only have been presented to President Wilson but have been introduced likewise to Secretary Bryan of the state department.

Colonel Thomas Birch, an intimate friend of both the president and Secretary Bryan, is likely to be minister to Belgium.

W. W. Bridge of Washington probably will take up one of the legations in Latin America.

George W. Guthrie, Democratic state chairman in Pennsylvania, and Norman E. Mack, formerly national chairman, are being urged for diplomatic appointments.

Gossip about assistant secretaries brings foremost the name of John Bassett Moore for first assistant secretary of state. Professor Moore teaches international law in Columbia university and is said to be desired as right hand man to Secretary Bryan.

It is believed that Charles S. Barrett of Georgia, president of the National Farmers' union, who was strongly urged for the post of secretary of agriculture, will be associated prominently with Secretary Houston of the agricultural department.

## Advance Easter Styles

It's None Too Early to Come Here and Select Your New  
**Stylecraft Garments for Easter**

Our Spring stocks are now at their very best. Styles, Sizes, patterns,  
colorings—all are as complete as it is possible to make them. Then why  
not come now for your new Easter Suit or Coat and pick out at your  
leisure, besides giving us plenty of time if any alterations are necessary? Isn't  
that much better than waiting until the rush sets in, with its possible delays and  
disappointments? Of course it is, but perhaps you have not yet given it a thought.  
Now that we call your attention to the importance of buying early, we know you'll  
act on our suggestion immediately.

## The Very Latest Styles Greet You Here!

In accordance with our usual custom, we show tomorrow the first of the  
new spring styles in women's and misses' garments prior to the opening  
of the regular season. You will be delighted with the novelties and inno-  
vations. Not in years have we shown such beautiful, graceful and dis-  
tinguished attire. Everything about these latest Murphy garments is or-  
iginal and distinctive. The coats are extremely smart, brought about by  
the graceful lines and accentuated by the right trimming so tastefully  
applied. The skirts, too, are cleverly cut and draped, in thorough keep-  
ing with the changed effects in the coats. Altogether the garments are  
much more beautiful than for many seasons past. You are very wel-  
come to view this exhibit.

## MAYOR W. G. NYE TO SPEAK AT BANQUET

Minneapolis Executive Chief Orator at Commercial Club Banquet Tuesday Evening

CARL ZAPFEE, TOASTMASTER

The Local Speakers on Program—Supper to be served by Ladies of Congregational Church

Hon. Wallace G. Nye, mayor of Minneapolis, will be the guest of honor and the speaker of the evening at the Commercial club banquet at the club rooms tomorrow evening. Mr. Nye will choose as his topic some subject concerning municipal government of interest to Brainerd people in general. Mr. Nye is known as a most forceful speaker who always has a message to deliver to his auditors. The supper will be served at six o'clock by the ladies of the Congregational church and the tables will be arranged in the assembly room of the Commercial club.

After the supper of several courses, Carl Zapfee, president of the commercial club and toastmaster of the evening, will commence the evening's program by a short introductory speech.

He will be followed by Mayor H. P. Dunn. "Our Schools," will be the subject of Prof. W. C. Cobb's remarks. "Commission Form of Government" will be the subject of W. W. Barron's address. Judge Jay Henry Long will speak on "Prospects of Brainerd." Following these local speakers will be Mayor Nye who will deliver the address of the evening.

### TO LOCATE IN BRAINERD

Capt. H. L. Bedell of International Falls, to go into Real Estate Business

Brainerd is to soon have an accession to its business men, Capt. H. L. Bedell of International Falls, who will go into the real estate business here and who has been examining Brainerd and the Cuyuna range for the purpose of looking up a suitable location. The International Falls Daily Journal has the following commendatory notice of Capt. Bedell:

Capt. H. L. Bedell arrived this morning from Brainerd, and he brought unpleasant news—announcement of his determination to remove to the capital of Crow Wing county. After looking over Brainerd and the Cuyuna section, Mr. Bedell decided there was a greater opportunity there for him in the real estate business than in this city and at once entered into arrangements to open an office in Brainerd. Since coming home this morning he has been doing his usual hustling "stunt." Before noon he had sold his house and lot on Sixth street to J. W. Foreman and in this issue is advertising his piano and automobile for sale. He expects to give possession of his property next week and will at once remove to Brainerd. Capt. Bedell is one of the pioneers of this section, having resided here for the past fifteen years. During that time he has negotiated some of the most important real estate transactions that have been made in this section, and has been successful both as a promoter and financially. Both he and Mrs. Bedell have many friends and all will learn with regret of their preparation to leave the city which has so long been their home. Brainerd is to be congratulated over the fact of adding them to their citizenship, and in the Captain that city's business interests will find one of the squarest, most straightforward and active boosters that any city ever contained.

## D STRICT DEBATE AT BRAINERD, MAR. 14

Crookston Meets the Brainerd High School Debating League this Friday Evening

AT HIGH SCHOOL AUDITORIUM

"Should General Government of U. S. Own and Operate Its Railways" is Question

On Friday evening, March 14, the high school debate between the Crookston high school and the Brainerd high school will be held in the high school auditorium of this city. The subject of the debate is "Should the General Government of the U. S. Own and Operate its Railways."

Crookston has the affirmative of the question. The Brainerd representatives are Nora Barron, Jean Mosier and Werner Lund, who were selected at a preliminary contest held a week since.

The judges will all be outside parties, probably from the departments of economics, political science and English at the university of Minnesota. Under the rules of the state league, the local school, where a contest is held, is required to meet all of the expenses including carfare and hotel bills of the visiting debaters and the outside judges. The expense will be about \$75. Hence it is necessary to sell a considerable number of tickets in order to meet the above amount.

As this is the first contest of the kind held in Brainerd it is hoped that the general public will help out by the purchase of a 25 cents ticket. The Crookston debaters were the state champions a year ago, which fact alone should be a matter of interest in connection with the debate.

### DUBUQUE'S PUBLIC MARKET

Mrs. George Lively, Formerly of Dubuque, Explains Points About the Iowa Market

Mrs. George Lively has written the Dispatch an interesting letter on the Dubuque, Iowa public market and having formerly lived in Dubuque and being well acquainted with the market which all people of that city always refer to with pride, she explains some points regarding the cash basis, etc., which will be of interest to readers. Her letter follows:

R. R. No. 4, Brainerd, March 4-13 Editor Brainerd Dispatch, Dear Sir:

I read with much pleasure the sketch you published some weeks ago about "The Dubuque Public Market," and as I once lived there I wish to mention some facts which the writer did not speak about.

The question has been asked me, "how do they prevent the farmers from peddling vegetables around town?" It is through cooperation. I think it is about twenty-three years ago that a city ordinance was passed in Dubuque which prohibited any grocer buying anything on the public market until after 9 A. M., also forbidding the farmers selling anything in the city, except on the market, until after 9 A. M. Even farmers who had regular customers were not allowed to deliver their produce until after that hour.

Another question was, "how do they manage the cash basis?" Dubuque has a great many factories, foundries and other industries whose employees are paid every Saturday. Some of the factories, at the time I lived there, allowed their employees a half holiday, Saturday afternoon; so they do not depend so much as Brainerd on the employees of the railroad company who are paid monthly.

I think the public market would be a fine thing for Brainerd and for the farmers. One says that the Brainerd ladies would be ashamed to be seen carrying a market basket, as many of the wealthiest ladies in Dubuque do, but on the other hand I think many of the farmers wives in the vicinity of Brainerd would be as much ashamed to be seen selling vegetables on a public market as their Brainerd sisters would be to be seen carrying a basket, but as I think of scenes that I have witnessed in Dubuque, I believe that on both sides they enjoyed not only profit but lots of pleasure in these early market hours.

Neither did the working class have to depend on left over vegetables as many of the farmers bringing in fresh supplies for Saturday evening. When it began to get late Saturday night was the opportunity for the poor, as the farmers generally sold what they had left, much cheaper, rather than haul it home.

Yours respectfully, MRS. GEO. LIVELY.

### WILL PUNISH THE INDIANS

Punitive Expedition Will be Sent Out by the Venezuelan Government Against Tribes

As a result of the capture of the two American mining engineers, William Leslie Taylor of Brainerd and Guy N. Borge of Duluth, by Indians in the interior of Venezuela, it is announced by Associated Press dispatches that the Venezuelan government will send a punitive expedition into the district occupied by the Indians to prevent further excesses.

Taylor was engaged by one of the Indians in a hand to hand encounter and was forced to kill his assailant. The two engineers lost their entire equipment and are now at Maracaibo.

Brainerd is to have a new cement block factory. J. F. Vaughn, the well known cement contractor and Julius C. Clausen, a carpenter contractor and builder, have formed a partnership to be known as the Vaughn-Clausen company and will go into the business of manufacturing continuous air space cement blocks for silos, barns and other buildings and also contract to build entire cement cottages and other residences.

A factory, 40 by 48 feet in size, will be built at the west end of the railway yards opposite the Brainerd flour mill. It is expected to have everything in readiness to commence making blocks by April first.

Machinery of all kinds, including an automatic tamping machine and other modern appliances have been ordered. All blocks will be steam seasoned and cured. The frame factory building will in a short time be succeeded by a rough casted cement structure.

Mr. Vaughn laid the first cement piling in the city three years ago on South Seventh street extending south from Laurel and it is in good condition, having stood the heavy traffic at this point. He constructed the first cement sidewalks in Crosby and also had big jobs at Walker and other points.

Mr. Clausen has built some very fine residences in Brainerd, one of his last contracts being the pretty residence of Mike Setula on East Oak street near Tenth street.

Brainerd will witness much building this season and the new firm is assured of success in a large measure.

### Brainerd Musical Club

Mrs. Howard G. Ingersoll and Miss Nell Pie Alderman were hostesses at an interesting meeting of the Musical club Saturday afternoon. As an opening number Mrs. Ingersoll and Miss Alderman gave a selection arranged for two pianos. Among the other pleasing features of the program were a group of songs by S. F. Alderman and a vocal duet by Mr. Alderman and Mrs. LaBar.

Miss Millicent Mahlum read a most excellent paper on "The Aim of Art." In substance Miss Mahlum said the real purpose of art is to break down the purpose of self. When we feel that the lives of others are as dear to them as our lives are to us, we are close to the heart of the secret. It is the mission of life to bring us that vivid sense of other lives. True art wins the wills of many into one mood, and makes them sharers in a common consciousness. The end of art will be reached when one spirit throbs thru universal man.

At the end of the program a short business session was held. Mrs. LaBar's resignation as vice-president was accepted. The members of the club were asked to bear in mind the preparations for the reception of the state federation in the autumn and to that end were urged to plant flowers, that our city may be as beautiful as possible at that time.

An Epidemic of Coughing is sweeping over the town and young and old are alike affected. Foley's Honey and Tar Compound is a quick safe reliable family medicine for coughs and colds. A. S. Jones, of Lee Pharmacy, Chico, Calif., says: "Foley's Honey and Tar Compound has no equal, and I recommend it as containing no narcotics or other harmful properties." H. P. Dunn.—Adv.

### "MICHAEL'S"

Few Women will believe this—Yet It's a fact that these new Nemo Corsets make stout women permanently thinner

This brand-new Nemo is a real wonder—a marvel of style, unequalled for comfort, and a most remarkable value simply as a corset. But, in addition to all this, the new—

**Nemo** Auto-Massage Self-Reducing

—will positively reduce the surplus abdominal flesh—not merely by pressure and reshaping the figure, but by means of an automatic massage due to the ingenious construction of the corset.

You needn't question this statement. It is based on well known scientific facts, and conservative physicians heartily endorse it.

#### SAVE MUCH MONEY

Instead of so much meat a great many Brainerd housekeepers are now serving "Minnesota" Macaroni twice a week. They say the men folks are not only glad to see them save the meat money, but like the delicious nut-like flavor of "Minnesota" Macaroni much better than meat.

To those who do not know what a big difference there is in macaroni as sold at the stores, the rich, delicious, flavor of "Minnesota" Macaroni will be a revelation. It is four times as nutritious as beef-steak, is much easier to digest and costs only about one cent a dish.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Adv't.

## CARDENAS TELLS OF MADERO'S END

Leader of Escort Describes Attack on Party.

### NO PREMONITION OF DANGER

Both Men Were Cool and Took Their Time Previous to Trip in Automobiles That Ended in Their Death. Were Caught Between Two Fires, He Says.

City of Mexico.—An account of the death of Francisco Madero and Jose Suarez is given by Major Cardenas, commander of the escort. Cardenas, a commander of rurales, distinguished for his zeal in putting down rebellions against the constituted authorities, was called to the capital especially for the duty he was to perform.

He explains that he received an order to transfer the prisoners from the national palace to the penitentiary shortly before 10 o'clock. He went to the room in which they were confined and awakened them. Madero apparently felt no concern for his life in this moment, for his one complaint

THE DEAD EX-OFFICIALS AND SENORA MADERO.

was that the authorities had not given him notice of their plan early in the evening, so that he might have returned early and been ready. He took his time about dressing and preparing for removal such things as he had brought with him to the palace. It was consequently some minutes after 11 o'clock when the party went out to get into the two automobiles that were waiting in the courtyard.

Even then, as the tale of Major Cardenas runs, Madero showed not the slightest concern or premonition of treachery. As though he were still clothed with the authority of the presidency, when he was about to enter the car set aside for him and Suarez he gave orders that he should be taken to the penitentiary by way of Rejola and Lecumberri streets.

This order figures in the alibi of the government, which holds that friends of Madero tried to rescue him. Major Cardenas says that the route designated by Madero had been decided upon previously, but when Madero himself chose it he told the drivers of the automobiles to take a different route. They did not come into the one chosen by Madero until they were within two blocks of the penitentiary, when they considered themselves safe from molestation.

On crossing the railroad bridge, however, they found that the Maderist plotters, as the government holds them to be, had been bolder than had been imagined. The machines had barely passed over the railway bridge on its approach to the prison when five men, lying prone at the roadside, fired upon them. The chauffeur slowed down his car as though to halt, but was ordered to put on all speed and run through the attacking party. He did so, but when the cars were within 200 yards of the penitentiary a larger band opened fire upon them. Major Cardenas then ordered the machines to stop. The escort descended and returned the fire.

Major Cardenas asserts that Madero and Suarez, seeing that their escort was outnumbered and was apparently busy in beating off the attacks of the rescuers, then undertook to make their way toward the other side. They were thus caught between the two fires and so were cut down. Examination of the bodies showed that they had been pierced with bullets from both front and back.

How the Mighty Are Fallen. Descendants of proud Polish kings live a decent life in one of the wild mountain regions of Europe, holding fast to inner Galicia. They have become primitive and clothe themselves in suits of blanket and furs, fashioned at home, with which to withstand the long and rigorous winters. They wear their hair long, live in rude slab board and log huts, and altogether strangely resemble the North American Indian in his semicivilized life today in the American northwest.—Argonaut.

## SERUM CREATES A BIG SENSATION

German Doctor Asserts It Cures Consumption.

### TO TEACH OTHER PHYSICIANS

Dr. F. F. Friedmann Arrives in New York and Opens Bureau to Spread His Lymph All Over Country—Receives Thousands of Requests—Injects Bacillus From Turtle.

Dr. Frederick Franz Friedmann of Berlin, whose announced discovery of a cure for tuberculosis has precipitated a controversy in both hemispheres because of the scarcity of scientific information accompanying the announcement, arrived in New York recently. He was met by his brother, Dr. A. C. H. Friedmann of Colorado Springs, Colo., and Charles E. Finlay, president of the Aetna National bank, New York city, who offered \$1,000,000 for the cure of test cases. He had with him a publicity agent named Charles de Vidal Hunt, who was recognized as a former Chicago newspaper man and is said to be connected with the Berlin bureau of a New York newspaper.

Dr. Friedmann, asserted Mr. Hunt, had said nothing more than that he offered his treatment—he did not want the word "remedy" used—to the United States government and that he wished it distributed as rapidly as possible in this country as well as in other countries.

"When I leave this country," Dr. Friedmann said, "I want to leave it so that no one can say he did not have an opportunity to try the Friedmann treatment because his financial means did not permit him to do so.

For Internal and External Cases. "I intend to treat tuberculosis internally as consumption and also the external forms, particularly as it shows itself in the knee joints of children."

The foregoing was interpreted by Dr. Friedmann's brother, Mr. Hunt, interrupted at this point to say:

"One of Dr. Friedmann's ambitions is to show the really remarkable results obtained in tuberculosis of the knee. Nothing would be more pleasing to him than to find as many as possible of these as affected."

Mr. Finlay said offers had been made of several places in which patients might be treated, but nothing definite in this direction was announced beyond the fact that Dr. Friedmann would be ready to begin work in four or five days and that a great many patients were expected.

"What does your treatment consist of?" Dr. Friedmann was asked.

Injects Bacillus From a Turtle.

"It is the injection," his brother replied, "into the blood (intravenous) or into the muscular tissue or subcutaneously of an avirulent (nonvirulent) atoxic (nonpoisonous) tuberculous bacillus from the turtle."

"Before he injected any of this into his first patient he injected it into himself three times at different intervals. No reaction beyond a little infiltration followed, and there was no fever to speak of."

Dr. Friedmann was asked how long ago he first employed the treatment. He said he thought it was four or five years ago. Reports from Berlin indicate that he announced in 1904 that he had isolated the bacillus tuberculous and that it was of value in the treatment of the disease.

According to Dr. Friedmann, he has conferred immunity from tuberculosis upon 350 newborn children by his treatment. When asked how he knew he had conferred immunity from the disease he replied that he had observed them for eighteen months following the administration of the treatment and that no ill effect had resulted. He made no reference to the possible subsequent development of tuberculosis.

### Thousands of Requests Come.

Thousands of telegrams and letters have come to the physician begging him to administer the cure to patients all over the country. He has announced that a sanitarium will be established in New York and others, probably later, in other cities and that he will teach physicians as rapidly as possible in his methods.

He declared he obtained a patent on the serum to prevent its falling into the hands of quacks.

It is to be administered absolutely free to all sufferers who can be reached.
